- ✓ Oil Pressure Switches
- ✓ Relays
- ✓ Flasher Relays
- ✓ Posi-Lockers
- ✓ Beacons
- ✓ Pertronix
- ✓ Truck/ Bus Mirrors
- ✓ CTEK Battery Chargers

Metal Jerry Cans

[Pro Quip 5L, 10L, 20L Metal Jerry Can](#)

Available in Red & Green

[Pro Quip 20L Diesel Metal Jerry Can](#)

Available in Yellow only

The Pro Quip 20L Diesel Metal Jerry Can is the latest addition to the Pro Quip Metal Jerry Can range. The highly visible color ensures that this fuel can stands out, and is easily identifiable.

All Metal Jerry Cans in the Pro Quip range share the following, unsurpassed quality attributes:

- Made out of 0.9mm thick pickled sheet steel.
- Unique wide channel breather for smoother pouring.
- Lined to prevent rusting with a petrol resistant coating of G35DX/S on an alkyd-ammonia base.
- Patented Locking Pin ensures that the can could not be opened accidentally.
- Completely leak proof bayonet closure with the can in any position.
- Manufactured and N.A.T.A. tested to comply with Australian Standard AS2906:2001.
- Smooth edge on the lip of the spout for better sealing.
- Strip welded handles for added strength when carrying a full can.

Wedco Plastic Fuel Cans

Wedco 4.7L, 9.4L, 15L, 20L, 25L Plastic Fuel Cans

The entire Wedco range is made of high-density, crush proof, rust proof polyethylene and are tough, durable and environmentally safe.

All Wedco Plastic Fuel Cans come complete with a Stopper, Vent Cap, Screw Cap and the patented Versaflex® spout (pictured right)

**PRO
QUIP**

Wedco 5L/2.5L Combination Can:

This unique Wedco Can is ideal for chainsaws and other garden power tools that require both fuel and oil for operation. The can is divided into two separate receptacles of 5L (left of picture) and 2.5L (right of picture), allowing you to carry 5L of chainsaw fuel, and 2.5L of Chainsaw Bar Oil in the one can.

Both receptacles have a Stopper, Screw Cap and Versaflex® Spout, with the 5L section only having a Vent Cap mounted on the handle. This would have to be the most compact, multi-purpose fuel/oil can on the market

Wedco 20L Military Style Plastic Fuel Can:

A Fuel Can range just would not be complete without a traditional, tall, straight-sided military style 20L Fuel Can. This special Wedco Can is suitable for situations where space and ease of use are paramount.

The 20L Military Style Plastic Fuel Can is thinner and taller than the standard squat-style version, allowing it to be stored or packed away in a smaller space. The Versaflex® Spout is stored in its own reservoir on the back of the can (right of picture), which extends down to include a heavy-duty handle to make it easier to lift the can when pouring

Marine Tank Adapters

With the new Pro Quip Marine Fuel Tank Adapter, your Wedco Plastic Fuel Can will go from carrying your extra fuel, to being a spare Marine Fuel Tank in no time. There is no more going ashore to refill your marine fuel tank, or attempting to pour from a fuel can into your marine tank, especially in rough seas. With the Marine Fuel Tank Adapter installed on your Wedco Plastic Fuel Can, you simply attach your outboard motor fuel hose to the coupling on top of the adapter, and you are away again. Nothing could be simpler.

The Pro Quip Marine Fuel Tank Adapter comes in four styles to suit a variety of outboard motors. It is safe, easy to use, and is suitable for all petrol and diesel run engines. It can also be adapted for use on portable generators, pumps and ATV's.
